Career Objective

To excel in the areas of Artificial Intelligence, Data Science, Web Development, and Cybersecurity by applying my technical expertise, analytical abilities, and problem-solving skills. I aim to continuously enhance my knowledge through practical exposure and innovation, while contributing meaningfully to organizational growth. My goal is to leverage emerging technologies to develop efficient, secure, and intelligent solutions that address real-world challenges, while also building a strong professional career in the corporate world.

Technical Skills

Programming Languages: C, Java, Python, HTML, SQL.

Tools & Frameworks: FTK Imager, iMazing, Autopsy, Oxygen Forensics, GitHub, MongoDB.

Projects

SafarSaathi – Group Travel Matchmaking Platform (2024)

Developed a web-based platform to connect individuals for group travel planning.

Implemented matchmaking algorithms for interest-based group formation.

Tools & Technologies: HTML, CSS, JavaScript, PHP, GitHub.

WebGenie – AI-Powered Website Generator (2025)

Designed and implemented a platform to auto-generate complete websites.

Integrated AI-driven code generation and customizable templates.

Tools & Technologies: Python, Django, HTML, JavaScript, Tailwind CSS, GitHub, OpenAI API.

Certifications

Digital Forensics & Cybersecurity (VCS2025083) – Value-Added Course Rizvi College of Engineering | Feb – Mar, 2024.

Education

Currently pursuing Bachelor of Engineering in **Artificial Intelligence & Data Science** at Rizvi College of Engineering, Mumbai University (3rd Year Semester V)

CGPA: SEM 4. – 8.92

HSC (Science) – 65.50% (2021) | MHT-CET: 76.62 percentile.

SSC – St. Stanislaus High School, Mumbai. 84.40% (2019).
